Bhupender | +48 453 247 555 | Warsaw, Poland | bb.datasage@gmail.com| LinkedIn | Portfolio

Data Analyst with experience in SQL, Python, Power BI, and Azure-supported reporting workflows. Skilled in business requirements gathering, data validation, reconciliation, dashboarding, and recurring reporting delivery. Seeking Data Analyst, BI Analyst, or Reporting Analyst roles in Poland.

PROFESSIONAL EXPERIENCE

SoftTech Solutions, Data Analyst | 07/2023 – 01/2026 | Remote

- **Partnered** with **finance**, **operations**, and **business stakeholders** to **gather reporting requirements**, define **KPI/SLA** logic, **document metric definitions**, and **align on source systems**, report frequency, and **expected outputs**.
- **Extracted**, **cleaned**, and **prepared recurring** finance and operational datasets, including invoice/payment records, budget summaries, transactional extracts, SKU/distributor sales data, and system-generated files, using **SQL**, **Python**, and **Excel Power Query**, reducing manual data preparation by ~4 hours per reporting cycle.
- Performed **end-to-end data validation** using freshness, row-count, null/duplicate, **schema**, and **referential integrity checks**, reducing recurring **reporting defects** from 5 to 3 per month.
- **Reconciled source extracts**, **transformed datasets**, and final reports by comparing counts, totals, and record-level details to identify missing records, duplicate entries, and **logic-based variances** before **stakeholder delivery**.
- **Analysed sales** across 20+ SKUs and 15+ distributors using **EDA** and **Pareto analysis**, identifying top-contributing **products** and **channels**, and **delivering weekly/monthly insights** for performance **tracking and planning**.
- Structured reporting data into **lightweight fact/dimension models**, **standardized keys,** and **data types**, and documented a **data dictionary** to **improve dashboard consistency** and **downstream usability**.
- **Built Power BI dashboards** with **DAX**, **drill-downs**, and row-level security, and **streamlined** Excel **Power Query/Pivot** workflows, contributing to **reporting automation** that saved ~184 hours annually.
- **Supported Azure-based** reporting workflows by validating files in **Blob Storage**, checking **ADF-driven refresh outputs**, assisting with **source-to-target mapping**, and using **notebooks** for **ad hoc validation** and **historical data backfills**.

Amzen Machines Pvt. Ltd, IT Intern | 07/2022 – 05/2023 | India

- **Supported data handling** and reporting activities in a **manufacturing environment** focused on special purpose machines, inspection systems, and **automation-related operations**.
- **Cleaned**, **organized**, and maintained Excel-based **operational data** for production tracking, inspection follow-up, material status, and **routine internal reporting**.
- Consolidated information from **multiple files** into **structured trackers** and **summary sheets**, improving visibility into pending, ongoing, and completed activities.
- Performed **basic data validation checks**, including **missing values**, duplicate records, **inconsistent formats**, and status mismatches, to improve **reporting accuracy** and **record reliability**.
- Assisted in **preparing recurring operational summaries** and **documentation** for internal review, helping teams **monitor workflow progress** and maintain more consistent records.

EDUCATION

- **Master's** in **Data Science & Business Analytics**, **University of Warsaw, Poland** | 2023 - Present
- **Bachelor's** in **Computer Science & Engineering**, **Maharshi Dayanand University, India** | 2018 - 2022
- **Data Science** and **Machine Learning**, **Scaler Academy, Woolf University, Remote** | 2023 - 2026

SKILLS

- **Data Analysis & Visualization**: Statistics, Excel, SQL, Power BI, Tableau, Customer analytics.
- **Project Management & Version Control**: Agile Methodology, Process Improvement, Jira, Git, KPI Reporting.
- **ERP & Automation Tools**: Microsoft PowerApps, Power Automate, SAP, Ad hoc analysis**.**
- **Programming & ML:** Python (NumPy, Pandas, SciPy), Predictive Modelling, MLOps, PyTorch, TensorFlow.
- **Cloud & Databases:** Azure, Docker, CI/CD pipelines, Airflow, MySQL, BigQuery, PostgreSQL, SQL Server, RDBMS.

PROJECTS

- Reporting Automation & Validation Workflow | SoftTech Solutions
- Stroke Risk Classification | Healthcare Analytics.
- Big Data-Driven Insights | Trends in IT Skills for Education.

CERTIFICATIONS

- Python Libraries for Data Analysis - Scaler Academy
- Microsoft Azure Machine Learning for Data Scientists
- Create Machine Learning Models in Microsoft Azure
- Anti-Money Laundering (University of Warsaw)
